

MEI CASHFLOW™ 9510

Acceptance

MEI Cashflow™ 9510 uses innovative discrimination technology to ensure the highest level of acceptance ever achieved by MEI. This high acceptance level can be maintained through the life of the product thanks to the software's ability to automatically adjust to the changes in coin population characteristics.

Speed and Security

MEI Cashflow™ 9510, MEI's new 5" 12/24V coin acceptor, provides the highest levels of security, combined with a high coin acceptance rate.

Reliability

The renowned reliability and robustness offered by MEI acceptors have been enhanced even further. They are now equipped with a bi-colour diagnostics LED, programming switches and support tools (CPM), providing operators with a wide range of configurations and easy operationfield with the minimum of training.

Intelligent technology inside

The new MEI Cashflow™ 9510 coin acceptor is the ideal choice for acceptor applications where high acceptance rates of valid coins are required with the added benefit of security against fraud. Both combine to boost sales MEI Cashflow™ 9510 is compatible with MEI Cashflow™ 130 and MS130b1. Programmable using DIL switches or the Cashflow™ Programming Module (CPM)

MEI CASHFLOW™ 9510

Technical Specification

Mechanical Options

Top Entry- for channel mounting
Direct For Front plate & Indirect applications

Power Requirements

12v DC
24v DC

Electrical Interfaces

16 Pin Dual in line 24v
10 Pin Dual in line 12v

Extended functionality

Multi pulse
Binary coded outputs
Extended BCO

Coinsets

Comprehensive coverage
details available on request

Dimensions

H: 135mm w:127mm D:45mm

Why choose MEI?

MEI has focused continuously on the needs of the vending industry for the last 30 years; this industry has seen innovation, invention and dedication passed from MEI to the vending world.

MEI is one of the largest manufacturers of electronic coin changegivers, bill acceptors, cashless payment systems and other unattended transaction systems. Over a billion transactions are made every week in 90 different countries using products from MEI.

Features and Benefits

- Features and benefits
- High Valid coin acceptance without compromising security
- New sensor set specifically designed to for bi Colour coin security
- Automatic coin population adjustment to help maintain a high acceptance rate
- 22 coin accept channels
- 2 field programmable token channels
- On board Parallel output and coin inhibit configuration
- Rapid, factory standard updates via the Cashflow Programming Module (CPM)
